

OVERTURE

Overture creates a linear colorized world. Accent your vacuum canopies, tunnel arches or architectural lines into a fun world of rainbow-liscious goodness.

Octave RGB LED Light Fixture	DMX-512 Controllable
Chip Type	SMD5050 RGB LED
Power	60 Watts
Beam Angle	270 Degrees
Input Voltage	AC100-208V
Lamp Size	7.5' x 1" x 6" whip
Weight	1 LB
Finish Color	White/Transparent
Waterproof Grade	IP65
Power Factor	>.5@120V >0.29 @208V
Life Span	50,000 Hours
Fixture Material	Polyvinyl Chloride
Manufacturer's Warranty	5 Years

Construction & Installation

The Overture fixture is constructed from Polyvinyl Chloride, which is a fancy way of saying PVC...plus, because that's what PVC.....well, is. We like it because it's flexible....which is a fancy way of saying you can bend it.

Installation typically involves 1" EMT/pipe straps or polyethylene terephthalate ratcheting strips, which is a fancy name for plastic zip ties.

Electrical & Operations

The Overture fixture is universal voltage (100-208V) with a high quality RGB driver. It can operate in temperatures -20 degrees Celsius to 40 degrees Celsius with high-efficacy LED chips to maintain overall cool fixture temperatures.

DMX-Full Scale RGB Practical Applications

Overture is the perfect way to burst color onto the linear features inside and outside of your facility. With our monthly managed service, we can setup your shows 3, 6, and 12 months or further. No app to download and learn, no precious time spent trying to setup shows. We take care of it for you!
