### Construction & Installation

Lyric strip lighting comes in customizable lengths which are fixed to the interior of your channel letters. A Big Dot rep would be happy to work with you and your electrician on installation.

Channel letters are not included.

### Electrical & Operations

The Lyric fixture runs on universal voltage (120-277V) with a RGB driver. Lyric can operate in temperatures -20 degrees Celsius to 50 degrees Celsius with high to maintain overall cool fixture temperatures.

### DMX-Full Scale RGB Practical Applications

Lyric is best utilized in white acrylic channels letters. This intelligent lighting allows for extremely fluid color fade effects with over the top brand theme enhancement, holiday, and special event light shows.
