
270° LED Neon Specification-D20

1. Pictures

2. Product Parameters

Product Name	20mm 270° Round LED Neon Light
Model No.	TC-NLD20
Dimension	Φ20mm
Source Type / Qty	SMD2835 (120leds/m)
Input Voltage	DC 24V
PCB Width	10MM
Color Temperature	RGB WS2811
Rated Power	14.4W/M, 144W/ROLL
Light Efficacy	NA
Lifespan	50,000 hours
Working Temperature	-20°C - 50°C
Storage Temperature	-20°C - 60°C
IP Rate	Default IP67
Warranty	5 years

3. Product Features

* High light transmittance, environmental friendly and food grade silicone material

* UV Resistant, Yellowing Resistant and Salt Resistant

* High performance homogeneous dot-free and uniform linear light option.

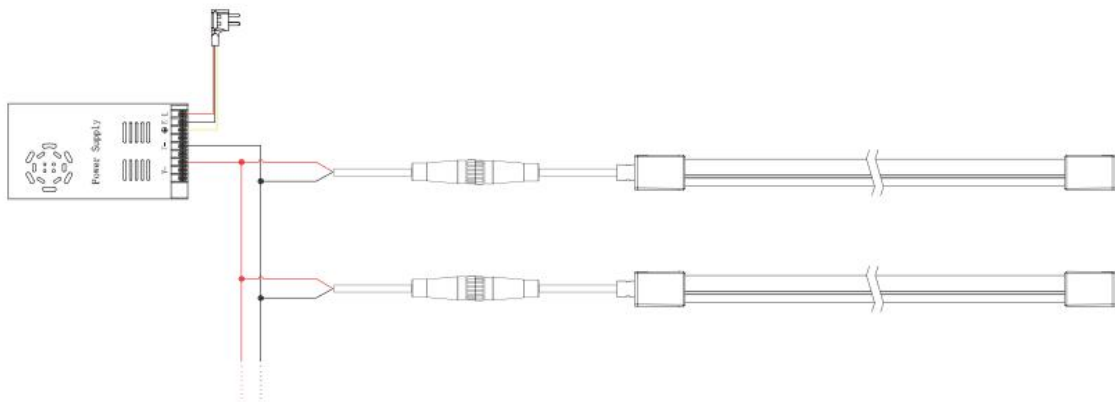

* Multi colors for options, suitable for different scenes

* Excellent flexibility for any bendable shapes

* Low power consumption for energy saving

* 5 years warranty

4. Installation Wiring

* Make sure of the total watts of LED neon lights is less than 80% of the power supply's max output.

* Match the polarities according to the mark ("+" and "-") in the PCB while connecting.

* Input DC 24V.

5. Product Dimension
